

Saeed Ud Din Ahmad

ahmadsaeeduddin@gmail.com | Portfolio

 Saeed-ud-din-ahmad |  ahmadsaeeduddin

EDUCATION

- FAST National University of Computer and Emerging Sciences** August 2022 - June 2026
Bachelor's In Computer Science Islamabad, Pakistan

EXPERIENCE

- Intellega** November 2025 - Present
Junior AI Engineer Remote / Islamabad
 - Developing **Agentic AI** frameworks and Large Language Model (LLM) integrations.
 - Implementing **RAG (Retrieval-Augmented Generation)** pipelines for enterprise-level NLP tasks.
- NESCOM** January 2025 - Present
Collaboration (Final Year Project) Islamabad, Pakistan
 - Collaborating with the Research & Academia Collaboration Department on high-fidelity aerospace computation.
 - Leading the team as **Scrum Master**, ensuring Agile milestones are met for physics-based simulations.
- Genesys Research Lab** June 2025 - August 2025
NLP / Gen-AI Intern Islamabad, Pakistan
 - Engineered Generative AI solutions using **Flask** and **FastAPI** for backend model serving.
 - Optimized database queries in **PostgreSQL** to handle large-scale textual datasets for NLP training.
- DSPORTSHUB** August 2025 - September 2025
Full Stack Intern Remote
 - Developed responsive UI components using **React.js** and integrated them with **Node/Express.js** backends.
 - Designed and managed relational schemas in **MySQL** and conducted end-to-end system testing.

PROJECTS

- Fake News Detection System** July 2025
Tools: Python, SentenceTransformers, RAG, FAISS, Groq (Llama 3)
 - Built an end-to-end pipeline using **Retrieval-Augmented Generation** to verify news claims in real-time.
 - Integrated web scraping and vector search to provide automated context retrieval and validation.
- Autonomous Car Simulation** May 2025
Tools: Python, PyTorch, Scikit-learn, TORCS
 - Developed a self-driving system by collecting and processing sensor data into custom datasets.
 - Trained a **Neural Network** to predict steering and throttle commands for automated navigation.
- Sentiment Analyzer** April 2025
Tools: TensorFlow, Keras, Python, NLP
 - Architected a Neural Network classifier to categorize Twitter data into four distinct sentiment classes.
 - Achieved **91.2% accuracy** through advanced preprocessing, tokenization, and word embeddings.

LEADERSHIP

- Khanabadosh Explorers** March 2024 - Present
Co-Founder & Operations Lead Founder
 - Scaled a student travel startup, successfully managing logistics for **10+ trips** with **300+ participants**.
 - Handled vendor negotiations, budget management, and multi-disciplinary team coordination.

SKILLS

Programming Languages: Python, JavaScript, Java, C++, C

Web Development: HTML, CSS, React.js, Node.js, Express.js, REST APIs, Next.js

Databases: MongoDB, MySQL, SQL Server, PostgreSQL

Frameworks & Libraries: .NET Framework, JavaFX, Spring Boot

ML Tools & Libraries: TensorFlow, Scikit-learn, PyTorch

Frameworks: .NET Framework, Spring Boot

Tools & DevOps: Git, Postman

Software Engineering Practices: Agile Methodology, Scrum Master, Version Control, API Development, Testing

Soft Skills: Team Collaboration, Event coordination, leadership
